Fruit Identity

Define the power with the GM. Complete this page when you acquire the Fruit.

CHARACTER / PLAYER

CAMPAIGN / GM

FRUIT NAME

FRUIT DIE

☐ d4 ☐ d6 ☐ d8

☐ d10 ☐ d12 ☐ d20

POWER'S CORE

One precise sentence: what does it let you do?

MATTER / PHENOMENON / CREATURE

INITIAL APPLICATIONS

Uses already available, rather than every theoretical application of the concept.

POWER'S ORIGIN

Where does it manifest from?

VALID TARGETS

Self, creatures, objects, environment…

FRUIT TRAIT

Name and manual reference.

FRUIT SIGNATURE

Condition and effect.

> Identity defines possibilities and limits. It does not automatically grant bonuses, damage, Statuses or Technique effects.

The Power’s Limits

Record actual values and conditions. Duration and permanence are different things.

FRUIT / CHARACTER

ORDINARY RANGE
Normal control distance.

ORDINARY QUANTITY
Matter, surface area or number of elements.

ORDINARY DURATION
How long does the natural effect last?

CONTROL PRECISION
How precisely can you manipulate it?

INTERACTION WITH LIVING BEINGS
Whether and how you can alter a living body.

PERMANENCE
What remains when control ends?

STRUCTURAL LIMITS
What you cannot do; necessary conditions.

NATURAL BACKLASH
Consequences for the user’s body.

AGREEMENTS AND REVISIONS
Date and changes agreed at the table.

> Without Backlash applies to the specified backlash: it does not remove the Fruit’s limits, requirements or weaknesses. The sea, Sea Stone and Haki retain their respective rules.

Acquired Abilities

Record what you actually possess, including costs, conditions and usage limits.

FRUIT / CHARACTER

01 / ACQUIRED TALENTS

Talent	Required grade	Activation	Cost	Effect / limits / reference

02 / FRUIT TECHNIQUES

Technique	Attribute	Grade	ST cost	Effects / Technique reference

PERMANENT TALENT CHOICES

For example: a chosen power, application, Legacy or agreed option.

> The Fruit Die grows by the GM's decision, without AP. An available Talent still needs to be acquired. Each Technique respects both the Fruit Die and the Attribute used.

Awakening

DESIGN / d20 Fruit Die, Ambition and the GM's permission.

AWAKENING NAME

AMBITION / AGREEMENT WITH THE GM

AWAKENED PRINCIPLE
How does the Power's Core develop?

MANIFESTATION
What appears or transforms?

FAMILIES INVOLVED

They describe the design; they do not grant bonuses.

- ☐ Origin
- ☐ Costs / Discounts
- ☐ Expansion
- ☐ Dominion
- ☐ Defence
- ☐ Attack
- ☐ Control

AGREED BENEFITS
Concrete, fixed effects; no freely changing them with each activation.

AREA / RANGE

VALID TARGETS

LIVING CREATURES

PERMANENCE

LIMITS SURPASSED

LIMITS RETAINED

PRICE / ADDITIONAL AGREED CONDITIONS

> Normal duration: 1 scene. Afterwards: ST 0 and the Fruit is unusable until a Long Rest. Ending it early does not avoid the price. Define the design before acquisition.

The World Becomes Element

AWAKENED LOGIA / Complete this page alongside your Awakening design.

FRUIT / CHARACTER

ELEMENTAL SATURATION

Element, location, intensity, extent and interaction with the environment.

HOSTILE ENVIRONMENT

Conditions are established in the design. Always specify how they apply and how to overcome them.

CONDITION 01

CONDITION / CONSEQUENCE

CIRCUMSTANCES OF APPLICATION

WHEN IT IS CHECKED

HOW TO REMOVE OR OVERCOME IT

CONDITION 02

CONDITION / CONSEQUENCE

CIRCUMSTANCES OF APPLICATION

WHEN IT IS CHECKED

HOW TO REMOVE OR OVERCOME IT

> Conditions do not cause universal automatic damage. For Statuses with an ordinary Save, the Threshold comes from the Fruit Die: d20 = 11. Specific procedures take precedence.
